

Preserving Birth

Placenta Encapsulation Services

Don't Leave It Behind!

More and more women are choosing placenta encapsulation to help them have a more enjoyable postpartum experience.

Benefits*

Reduced risk of baby blues/PPD

Speed up recovery time

Breastmilk production

Increased energy and feeling more balanced

Helps uterus return to shape

Restored iron levels

Convenient & easy to take, just like a vitamin

*statements not evaluated by FDA

I am a certified placenta encapsulator serving most of greater Houston. I have been encapsulating for other women since I had a wonderful experience myself with the birth of my first son. I make the entire process simple and affordable. Keepsake cords, tinctures and prints also available. Please contact me for pricing, package options and scheduling.

Wishing you a wonderful "4th Trimester"

Julie Quates, IPPA Certified Encapsulator
